

# MAGNESIUM DDP<sup>®</sup>

## PRODUCT DESCRIPTION

Wolf Trax™ Magnesium DDP combines two forms of Magnesium into a Dry Dispersible Powder, or DDP, with a proprietary adjuvant package to achieve synergy with a carrier such as fertilizer for improved plant uptake. Wolf Trax Magnesium is delivered along with every granule, providing more feeding sites in closer proximity to plant roots for earlier uptake.

Guaranteed Analysis	
Magnesium (Mg) 3.00% Water Soluble	30.00%

*Derived from: Magnesium Oxide, Magnesium Carbonate and Magnesium Sulfate*

Product Specifications		
Appearance	Color	Carrier Load (w/w)
Powder	Off White	0.80%

*Typical Carriers: 15-15-15, DAP, MAP, MKP, MOP, SOP, UREA and others*

Fertilizer Amount	Wolf Trax Magnesium DDP (max)	Elemental Mg
1 Ton (2,000 lbs.)	16 lbs.	4.80 lbs.

## KEY BENEFITS

- Adheres to carriers with EvenCoat® Technology, through the combination of electrostatic interaction and the aid of a proprietary adjuvant blend
- Extends window of availability by combining three sources of Magnesium
- Increases root absorption of non-soluble Magnesium by milling which multiplies the reactive surface area
- Extends the zone of Magnesium availability through the combination of soluble and non-soluble forms
- Increases the number of interception points for roots to access bioavailable Magnesium early in the growing season
- Provides flexibility in storage, transport and blending
